

The PhD interview will take place online (zoom) on Friday, September 17, 2021: 10.00.

The candidates are asked to prepare two short (4-10 slides) PowerPoint presentations: one concerning the master thesis and the second about the planned doctoral thesis.

A zoom link with an exact individual time of interview will be sent on September 16.

Requirements

Applicants should have a general knowledge of the broadly understood field of Natural or Earth Sciences (when the selected topic concerns Paleontology/Geology), and a good command of English, on a level sufficient for Ph.D. dissertation preparation (upon submitting the dissertation we require language competency certificate at least on the B2 level).

Detailed requirements are to be found in the notice of recruitment.
